PROFESSIONAL SUMMARY

Results-driven QA Engineer with 9 months of professional experience at Cognizant Technology Solutions, delivering high-quality software releases for a US FinTech client (AEL Digital Platform). Spearheaded API Manual Testing and API Test Automation using Postman and Rest Assured (Java), reducing manual testing effort by 40%. Monitored and analysed API performance using AWS Datadog, CloudWatch, Step Functions, and Lambda; validated backend data integrity via PGAdmin (PostgreSQL). Demonstrated expertise in Web Manual Testing and Selenium WebDriver Automation during internship. B.Tech in AI and ML (GPA 8.06/10) — proficient in JIRA, qTest, STLC, and Agile Scrum methodologies.

TECHNICAL SKILLS

Testing Skills: API Manual Testing, API Test Automation, Web Manual Testing, Web Test Automation, Functional Testing, Regression Testing, Smoke Testing, Integration Testing, System Testing, UAT, Exploratory Testing, Negative Testing

Automation Tools: Rest Assured (Java), Selenium WebDriver (Java), TestNG, Cucumber BDD, Gherkin, Page Object Model (POM), Data-Driven Testing Framework

API and Web Services: Postman, RESTful APIs, HTTP Methods (GET POST PUT DELETE PATCH), JSON, XML, Request Validation, Response Validation, Status Code Testing, Authentication Testing

Cloud and Monitoring: AWS Datadog, Amazon CloudWatch, AWS Step Functions, AWS Lambda, Log Analysis, API Performance Monitoring, Endpoint Health Monitoring

Database Skills: PGAdmin, PostgreSQL, MySQL, SQL (DDL, DML, Joins, Subqueries), Data Integrity Validation, Backend Validation

Test Management: JIRA, qTest, Test Planning, Test Case Design, Test Case Execution, Defect Lifecycle Management, Traceability Matrix, Test Summary Reports, Test Metrics

DevOps and CI/CD: Git, GitHub, Maven, Jenkins, CI/CD Pipeline, Docker

Programming Languages: Java, C#, Python, SQL

Methodologies: Agile (Scrum), Sprint Planning, Daily Stand-ups, Sprint Reviews, Retrospectives, STLC, SDLC

PROFESSIONAL EXPERIENCE

QA Engineer

Cognizant Technology Solutions | Hyderabad, India | October 2024 – Present

Project: AEL – Digital Platform | **Client:** American Equity Investment Life Holding Company (AEL), US | **Team Size:** 50

Tools: JIRA, qTest, PGAdmin (PostgreSQL), Postman, Rest Assured (Java), AWS Datadog, CloudWatch, Step Functions, Lambda, Git

- Designed and executed 200+ API test cases (functional, regression, smoke, integration, negative) across 20+ REST endpoints using Postman, achieving 98% test coverage for all critical API workflows.
- Engineered and maintained an API Test Automation suite using Rest Assured (Java), automating 60+ regression and smoke tests and reducing manual testing effort by 40%, enabling faster sprint delivery cycles.
- Monitored and analysed API execution logs using AWS CloudWatch post-deployment, traced workflow state transitions via AWS Step Functions, and verified serverless function triggers via AWS Lambda — reducing post-release defect leakage by 25%.
- Integrated Datadog dashboards to track 5 key API performance metrics (response time, error rate, throughput, latency, availability), enabling proactive issue detection and improving mean time to resolution by 30%.
- Validated data integrity across 15+ database tables using PGAdmin (PostgreSQL) via SQL queries (DDL, DML, Joins), uncovering and resolving 10+ critical data defects before production release.
- Managed end-to-end defect lifecycle in JIRA — logged and tracked 80+ defects with severity, priority, and reproduction steps, collaborating with 50 cross-functional team members to achieve zero critical production defects.
- Led QA sign-off for 3 major sprint releases, participating in sprint planning, daily stand-ups, sprint reviews, and retrospectives within an Agile Scrum framework.

QA Engineer Intern

Cognizant Technology Solutions | Bengaluru, India | April 2025 – July 2025

- Developed and executed 100+ web manual test cases (functional, regression, smoke, negative) covering 5 core user journeys; tracked all defects in JIRA achieving full test coverage.
- Automated 30+ UI test scenarios using Selenium WebDriver (Java) with POM, handling dynamic elements, windows, and frames — cutting manual regression effort by 35%.
- Integrated TestNG suite into Jenkins CI/CD pipeline via Maven and Git; executed SQL queries in MySQL to validate data integrity; authored traceability matrices per STLC.

EDUCATION

B.Tech in Artificial Intelligence and Machine Learning

NRI Institute of Technology, Agiripalli | 2021 – 2025 | GPA: 8.06 / 10.0

Intermediate MPC | Sarada Junior College | 2021 | 86.6%

Secondary SSC | Narayana Group of Schools | 2019 | GPA: 8.8 / 10.0

CERTIFICATIONS

- Microsoft Certified: Azure Data Engineer Associate — Microsoft (2024)
- Data Visualization using Python — IBM (2024)
- Deep Learning Fundamentals — IBM / Cognitive Class (2024)
- Cloud Computing — NPTEL (2024) | IoT Silver Badge — NPTEL (2024)
- Introduction to Python for Data Science — DataQuest (2024)

ACHIEVEMENTS AND LEADERSHIP

- Ranked 5th Place (Regional Round) — PSGiTech HackFest 2K24 (SAP), competed against 200+ teams across South India.
- Awarded 1st Prize — Paper Presentation, SUNRISE TECH FEST 2K23; researched AI-driven approaches to software quality assurance.
- Awarded 3rd Prize — IDEATHON: Viksit Bharat 2047, VRSEC. Spearheaded 3-day Frontend Dev workshop, Innovista Club — trained 50+ students.
